San Francisco Bay Area Council
Boy Scouts of America

Congratulations on taking what you learned at the 2017 NYLT course and applying those skills at your home unit to complete three goals. This exceptional achievement is one you should be proud of and you should wear the NYLT trained strip on your uniform with pride.

Your success in completing your goals says a lot about you - and we are looking for people like you. We would like to invite you to apply to be a staff member at the 2018 NYLT course. It has often been said that to truly learn a subject, you need to teach the subject. Learning leadership skills is no exception and becoming an NYLT staff member will give you the opportunity to develop further leadership skills that will benefit you for the rest of your life.

Being on NYLT staff is fun and counts towards community service hours. Also consider that others before you have invested their time to be on staff in order for you to learn. Invest in the teaching of the next group of participants just as others have done for you.

In 2018, we will be holding three sessions again: June 17-23, June 24-30, and the Fall Week-end Course, all at Rancho Los Mochos. Further information about being a staff member can be found on the staff page at our website www.SFBAC-nylt.org/Staff-NYLT.htm.

If you have any questions, don't hesitate to contact me – my email details are below. I look forward to seeing you at staff interviews in December!
